

## Smart IoT Starter Kits

2019 | Smart Home Solutions

## Welcome to AirLive

We are explorers, finding new technology and applications to join people's life.

In our 25 years of milestones, we have developed technology solutions that realize various network technologies. Now, we focus on something that is most valuable to each one of us- Smart Home.

We want to make Smart Home simple, practical, reliable, intelligent and expandable. It will realize and create ideas to improve your daily life. We want to make it easy to start and simple to expand. Starts with package and accessories that is suitable for DIY applications. Expand to full scale application including voice control as your needs grow. Soon, you will find smart home is more than something that nice to have. It is something you can't live without.

At AirLive, we believe all ideas are possible. Our goal is to make people's life easier. Easy distribution and reselling for our partners. Easy installation with pre-pairing that eliminate complicated setup. We want to put a smile on everyone's face when they think of AirLive. That is our mission.

# Easy to Install

## DIY Starter Kits

Starter Package	Z-Wave Gateway	PIR Motion Sensor	3-in-1 Sensor Door/Window + Illumination + Temperature	Smart Plug	IP Camera
SK-101	●	●	●	●

- Detects movement
- Set alarm or notification when triggered

SC-300W

### IP Camera

- 3 Megapixel Recording
- Built-in PIR sensor
- Built-in Temperature Sensor
- SD Card Slot

## APP Control

AirLive's Smart Life APP is an easy-to-use yet powerful APP that is available in iOS or Android system.

## Device Control

You can monitor the status of each device and turn it on/off.

## Scene

Make a group of devices and name it for location such as bedroom or occasion such as party. One touch on the APP or voice control to activate.

Turn on the light and play the music

## Macro

Set If-this-then-that rules. For example, if door sensor is triggered on Monday to Friday between 9 to 5pm, sound the alarm and send notification through APP.

*Someone in Bathroom*

*Turn on the light for 10 minutes*

AirLive Smart Life Plus APP

App Store

Google Play

## Home Security

While you are away from the home, the siren will sound and send you notification when a thief tries to enter.

Motion Sensor

Door/Window Sensor

Siren

IPCAM Live View

## Home Automation

If light level is less than 10% and time is after 6pm. Then turn on the light and close the curtain.

Brightness sensor

Smart Plug

Roller Shutter

## Energy Saving

When some one is at the entrance area, the light will be automatically turn on. When there is no more motion detected, the light will turn off to save energy.

Motion Sensor

Smart Light Bulb Dimmer

## Elderly Care

You can remotely watch an elder through IP camera to check if he or she needs help. The elder can use smart phone APP to turn on or off the light.

IPCAM Live View

Smart Phone APP

Smart Plug

## Parental Control

Limit the time when the child can watch TV when home alone.

Smart Plug

Scheduling

*Developing!*

This feature is not yet ready.  
Will be free to upgrade  
when ready.

## Voice Control

You can control your smart home kits by simply speaking to it. AirLive provides versatile voice control capability for your smart home starter kits

### amazon alexa

AirLive support Alexa's Smart Home Skill directly. So you can just say "Turn on the light" directly to voice control the automation

### Google Home

Both Google Home and Google Assistant are supported. You can do voice control through both your smart phone and smart speaker

## Map to a Scene

Create a scene using your APP called Party. So, you can just say "Party Time" and the lights and appliance can be turned on.

### Wireless Network

---

Let you place the device anywhere without wires. Mesh Technology provides wide coverage.

### Battery Life

---

Z-Wave Plus technology provides 2-3 years battery life. More than 100 times longer than WiFi

### Pre-Paring

---

Pairing is a process to bind the gateway and IoT device together. Our DIY starter package are pre-paired so it's ready to go out of box.

### Expandable

---

Beyond the Starter Package, you can add more AirLive IoT devices to expand your application.
