Smart IoT Home

Smart Home Solutions

Welcome to AirLive

We are explorers, finding new technology and applications to join people's life.

In our 25 years of milestones, we have developed technology solutions that realize various network technologies. Now, we focus on something that is most valuable to each one of us-Smart Home.

We want to make Smart Home simple, practical, reliable, intelligent and expandable. It will realize and create ideas to improve your daily life. We want to make it easy to start and simple to expand. Starts with package and accessories that is suitable for DIY applications. Expand to full scale application including voice control as your needs grow. Soon, you will find smart home is more than something that nice to have. It is something you can't live without.

At AirLive, we believe all ideas are possible. Our goal is to make people's life easier. Easy installation with pre-pairing that eliminates complicated setup. We want to put a smile on everyone's face when they think of AirLive. That is our mission.

Easy to Install

STEP 1.
Unpack and place sensors in locations

STEP 2.
Remove
Remove the battery protected tag

STEP 3.
Discover
Download the APP and discover the gateway

DIY Starter Kits

Starter Package	Z-Wave Gateway	PIR Motion Sensor	3-in-1 Sensor Door/Window + Illumination + Temperature	Smart Plug	IP Camera
SK-101	●	●	●	●	
SK-102	●	●	●		
SK-103	●	●	●		●
SK-104	●	●	●	●	●

Package

3-in-1 Sensor
- Door/Window Sensor
- Temperature Sensor
- Brightness Sensor

SI-101

Smart Home Gateway
- Center hub of Smart Home
- Built-in Siren

SG-101

Smart Plug
- Power on/off device
- Set up schedule
- Monitor energy consumption

SP-101

PIR Motion Sensor
- Detects movement
- Set alarm or notification when triggered

SI-102

IP Camera
- 3 Megapixel Recording
- Built-in PIR, Temperature and Humidity Sensor
- SD Card Slot

SC-300W

LIVE

Home Automation

If light level is less than 10% and time is after 6pm. Then turn on the light and close the curtain.

Smart Plug

Roller Shutter

Brightness Sensor

When someone is at the atrium, the motion sensor is triggered.

Then the smartplug will turn the light on

Energy Saving

When someone is at the entrance area, the light will be automatically turn on. When there is no more motion detected, the light will turn off to save energy.

**Motion Sensor**

Smart Plug

Elderly Care

You can remotely watch an elder through IP camera to check if he or she needs help. The elder can use smart phone APP to turn on or off the light.

IPCAM Live View **Smart Phone APP** **Smart Plug**

Parental Control

Limit the time when the child can watch TV when home alone.

Smart Plug **Scheduling**

Home Security

While you are away from the home, the Siren will sound and send you notification when a thief tries to enter.

2 — IP Camera to view who enter the house

3 — Motion sensor to detect when someone breaks the window

1 — 3-in-1 sensor to detect when door opens

Motion Sensor

Door/Window Sensor

Smart IoT Cloud

AirLive Smart IoT Cloud is a free service that provide voice control, multiple gateways & locations, statistic, and face labeling service.

Voice Control

You can build your own command to voice control your smart home using Amazon Alexa or Google Home & Assistant. Just say "**turn on the kitchen light**" and let the AirLive Cloud perform the magic for you.

Multiple Locations

If you have multiple gateways in different locations. You can use AirLive Smart IoT Cloud to manage it. Just go to cloud.airlive.com to start.
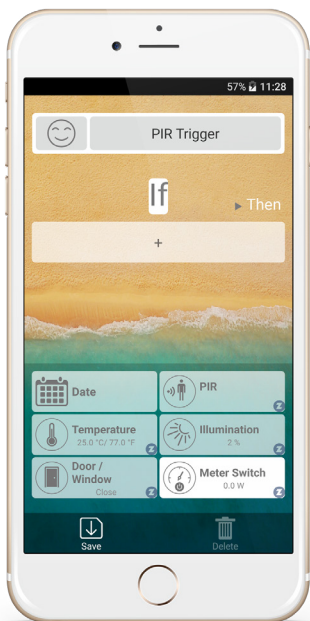

Face Labeling

AirLive Smart IoT Cloud can recognize faces and let you set the action when a person is detected. So you can set master bedroom to turn on the light and play the music when father is home.

Anna

APP Control

AirLive SmartLife Plus APP is an easy-to-use yet powerful APP that is available for iOS or Android system.

Device Control

You can monitor the status of each device and turn it on/off.

Scene

Make a group of devices and name it for location such as bedroom or occasion such as party. One touch on the APP or voice control to activate.

Turn on the light and play the music

Macro

Set If-This-Then-That rules. For example, if Door Sensor is triggered on Monday to Friday between 9 to 5pm, sound the alarm and send notification through APP.

IF — *Someone in Bathroom*

Then — *Turn on the light for 10 minutes*

AirLive Smart Life Plus APP

Download on the App Store

ANDROID APP ON Google play

Lighting

SD-102

- Light Bulb Dimmer Socket
- Set light level by APP or by Voice
- E27 to E14 size

SA-102

- In-Wall Switch
- Turn light on/off
- Power socket On/Off

SD-101

- In-Wall Dimmer
- Set light level by APP or by Voice
- Work with existing dimmer switch

SD-103

- RGBW LED Controller
- Set different light color by APP
- 6 color motion themes

Sensor & Actuator

SI-103

- Flood and Water Detector
- Built-in buzzer
- Protect your kitchen and bathroom

SI-104

- Smoke Detector
- Built-in alarm
- Notify you remotely

SA-103

- Roller Shutter Controller
- Open or close the curtain
- Open or close the garage door

SI-110

- IR Remote Controller
- Control Air Condition remotely
- Built-in models or learning mode

Controller

SR-101

- Multi-function Smart Button
- Turn to control light level
- Turn to control curtain

SB-101

- Emergency Help Push Button
- Panic button to send notification
- Arm and disarm security buttons

SA-104

- Dual Relay Wall Switch
- Turn on/off light by push buton
- Turn on/off light by APP or Voice

SA-105

- Wall Plate Switch
- Turn on/off light by touch
- Turn on/off light by APP or Voice

Wireless Network

Let you place the device anywhere without wires. Mesh Technology provides wide coverage.

Battery Life

Z-Wave Plus technology provides 2-3 years battery life. More than 100 times longer than WiFi

Pre-Paired

Pairing is a process to bind the gateway and IoT device together. Our DIY Starter Kits are pre-paired so it's ready to go out of box.

Expandable

Beyond the Starter Kits, you can add more AirLive IoT devices to expand your application.
