

How to setup Google Assistant and Amazon Alexa.

Make sure your Gateway has Firmware version 1.81 or higher.

First the Gateway that will be used needs to be binded. To do this in the APP go to (1)“Settings” >> (2) “Other Settings” and click on (3)“Connect To Cloud” you would need to agree (4) to continue (5) after this click in (6)“Auth Code” write down the code (7) that appears and press the word (8)“binding” and follow the steps shown on the screen.

***Note** for Google Home/Google Assistant you need to use a Gmail email address, also make sure Google Assistant works on your Smartphone and in your Region!

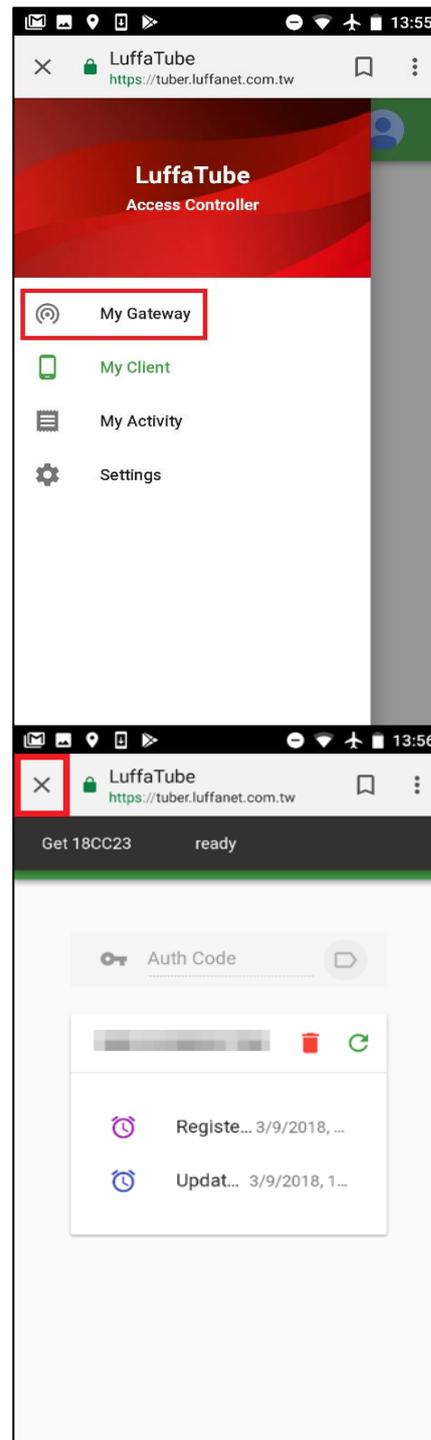

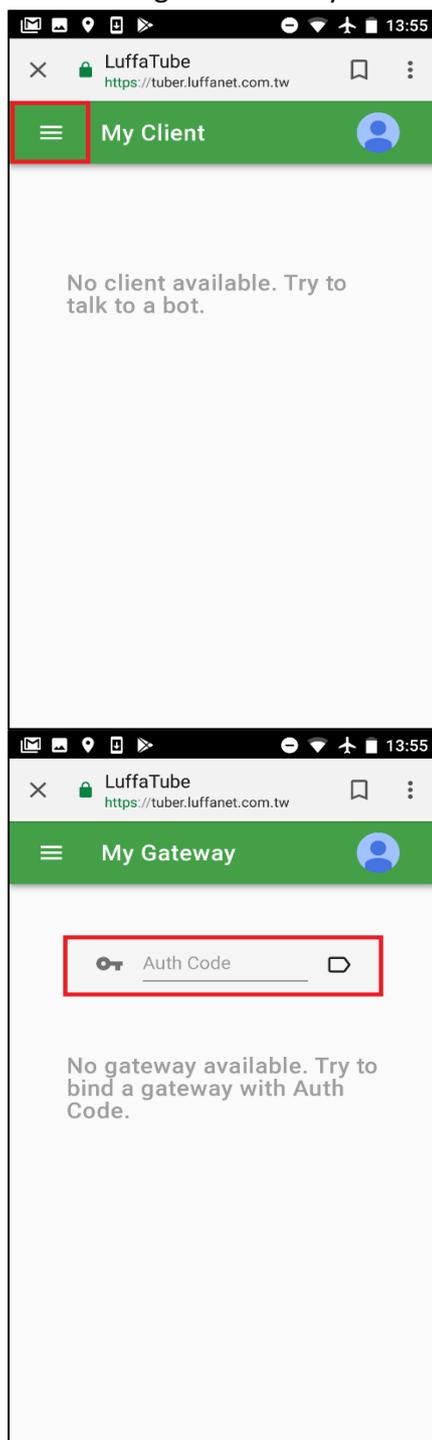

Register Gateway for use with Google and Amazon Voice Control.

1. You would need to Register with LuffaTube first. For this the Auth Code is needed, this is the code which was shown before when you binded the Gateway.

1-1 Go to the website <https://tuber.luffanet.com.tw/#/>

Login to the LuffaTube website with your Google account,

(A must for Google Assistant). Also please use the same email address you used when binding the Gateway.

Enter the Gateway Auth Code to bind the Gateway.

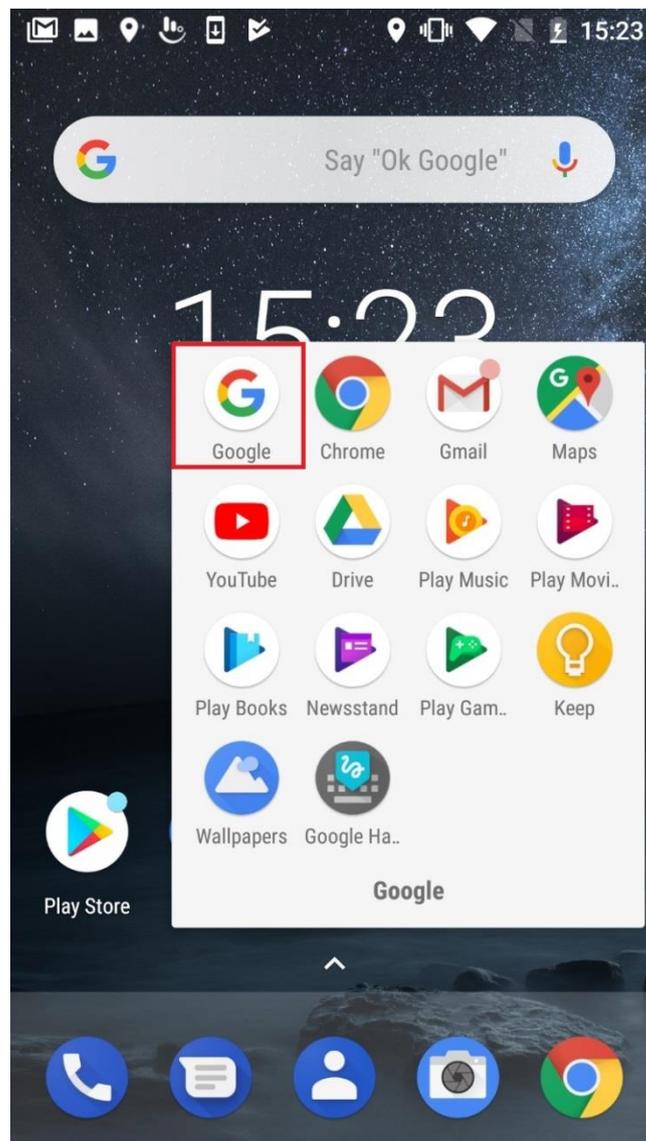

Google Assistant and Google Home Kit Setup

2. Google Assistant & Google Home Kit

Google Home only works when you have a Google Home Speaker, For Google Assistant you would need Android 6.0 or Higher.

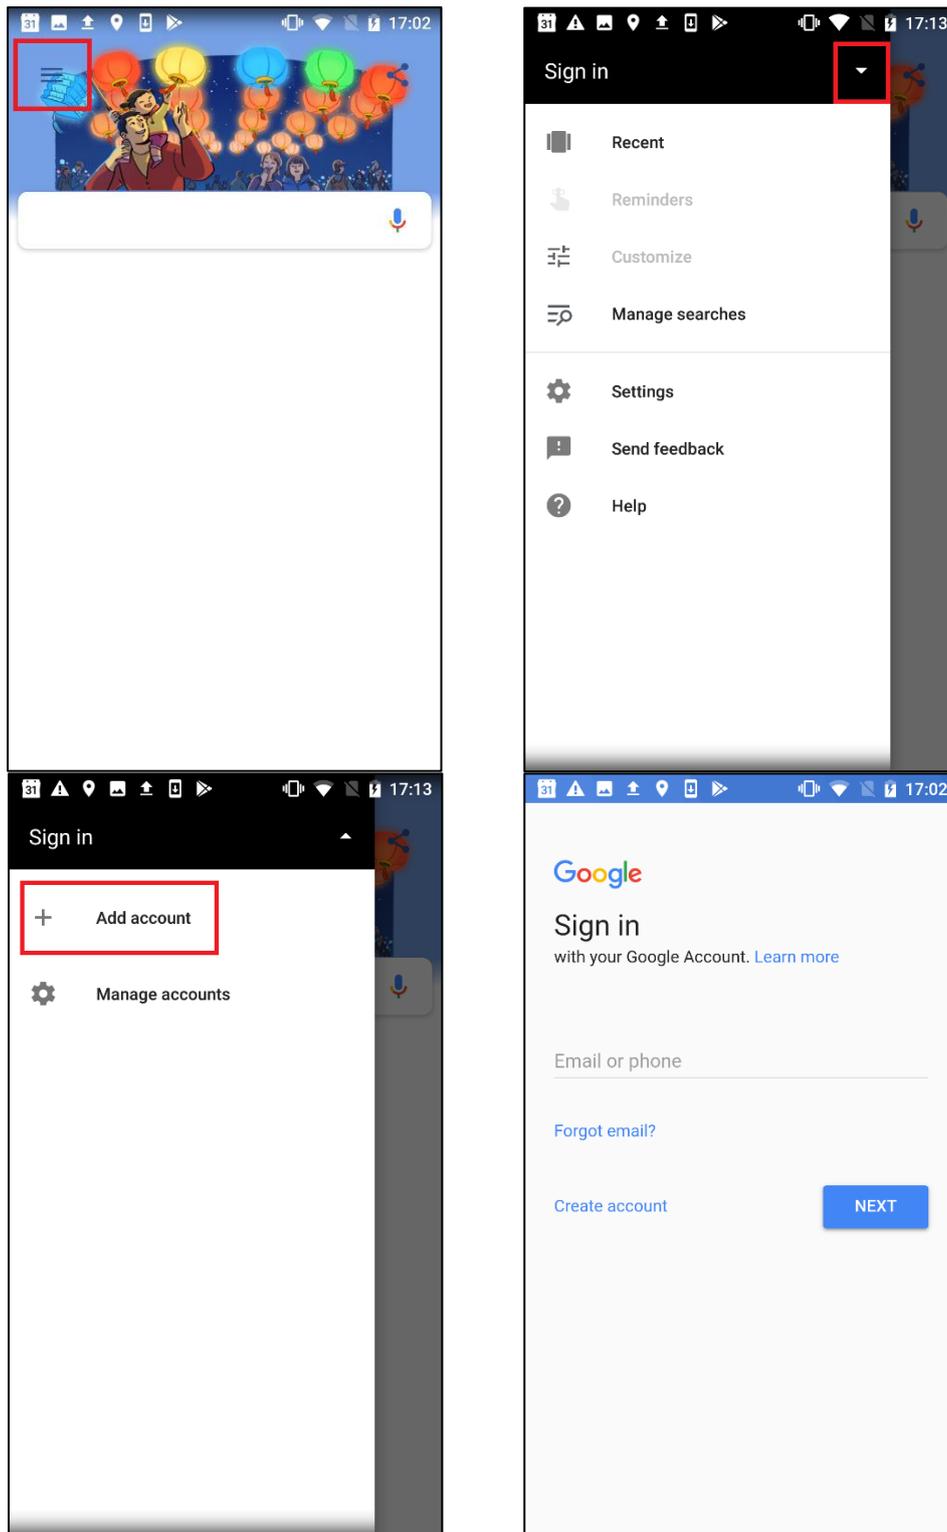

2-1 Setting language change to English (U.S) in Mobile

2-2 Open the "Google" app as shown below.

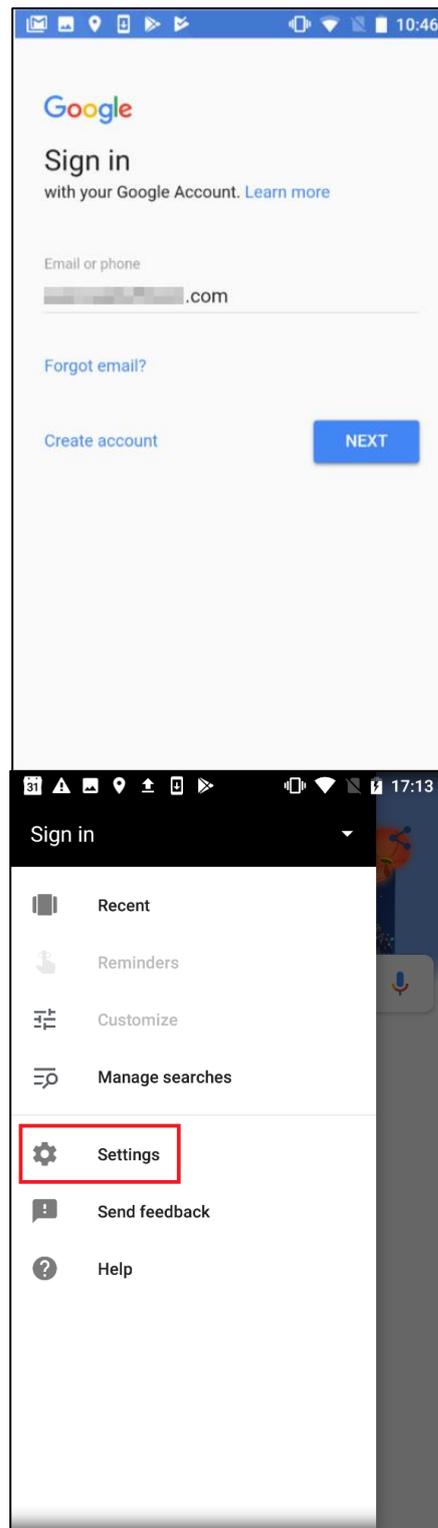

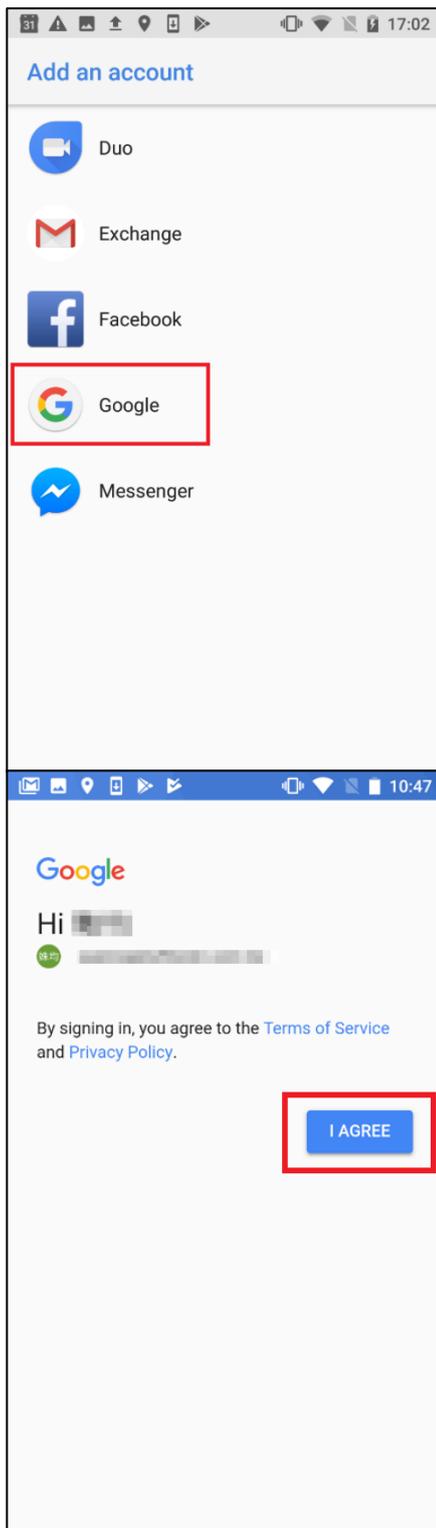

2-3 Say "OK Google", "Google app" will setup your voice & bind your Google account. Please use the **same** account as the one that was used for your LuffaTube registration. When you have a different account on your phone please add the other account first. (Google account must be "@gmail.com", not a company account in Google).

When Voice binding fails, please do the manual setup as show in the below steps.

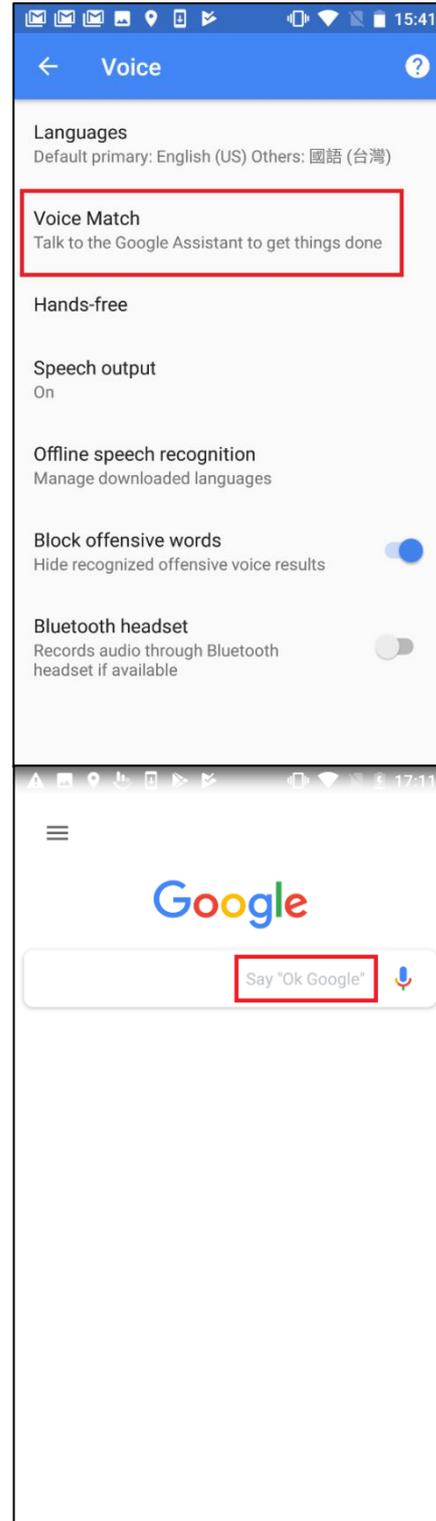

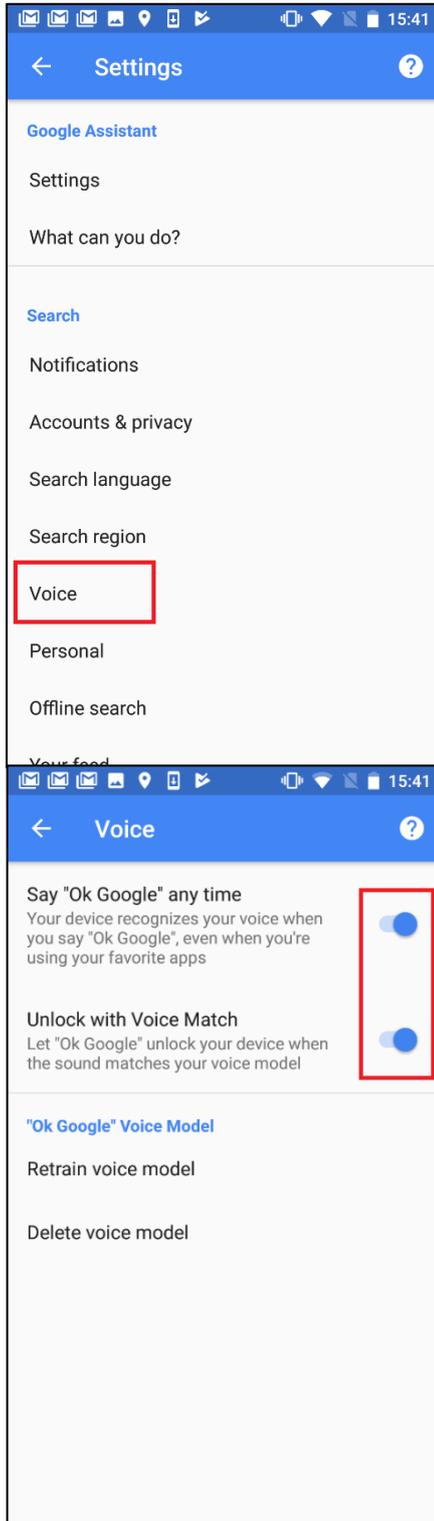

Please use the **same** account as the LuffaTube registration.

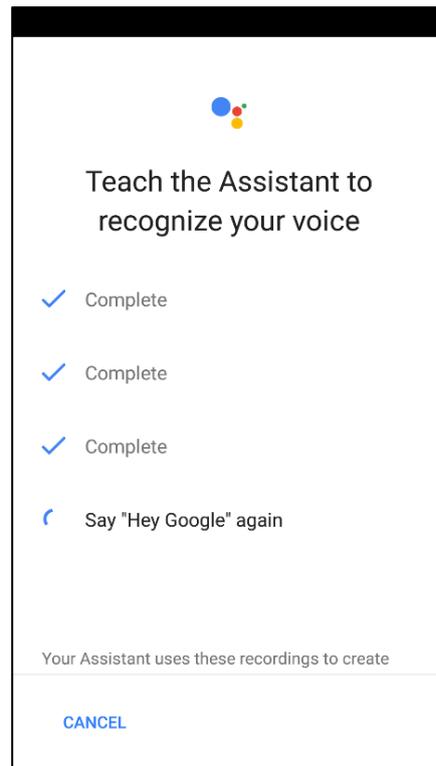

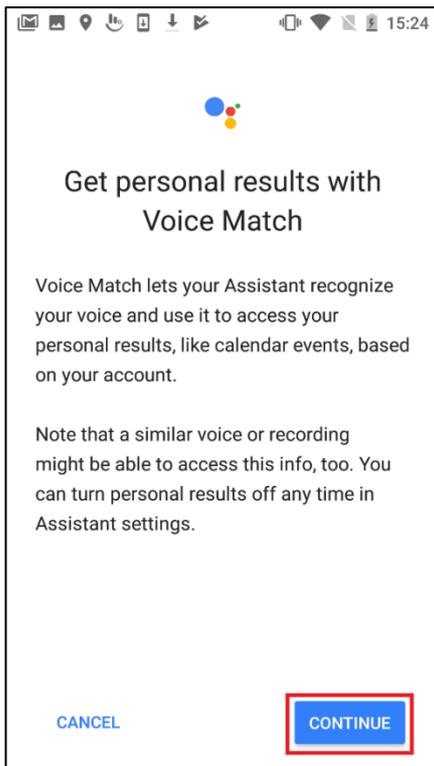

And continue the following steps.

Google Voice Setup.

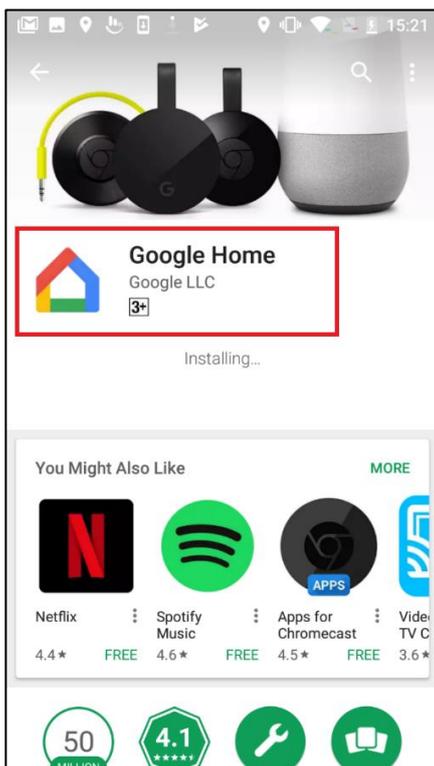

Enable and Setup Google Assistant: Say “OK Google!”

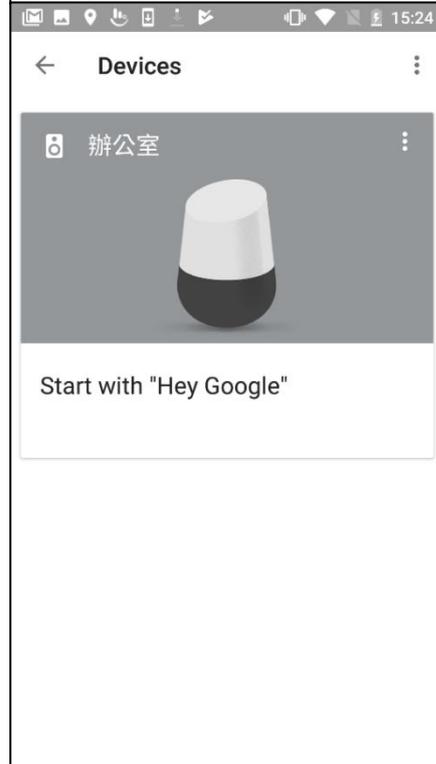

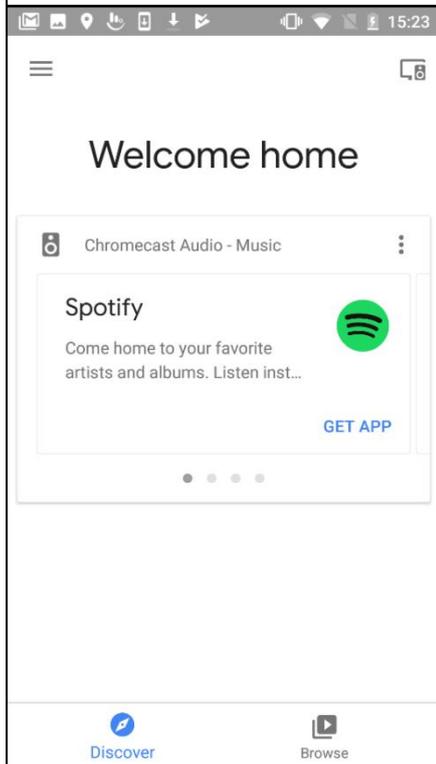

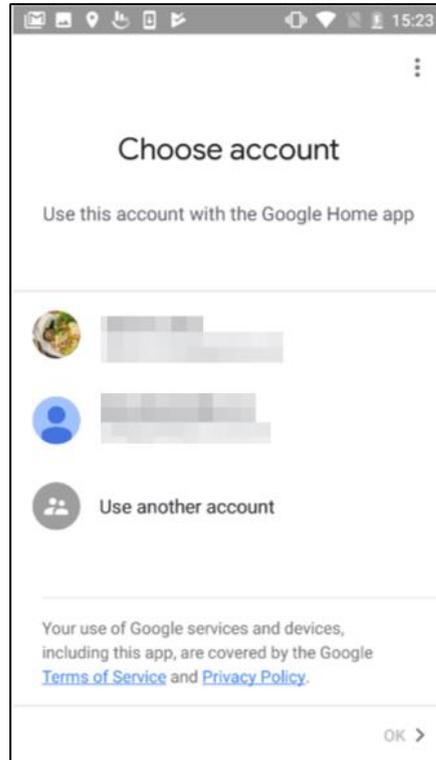

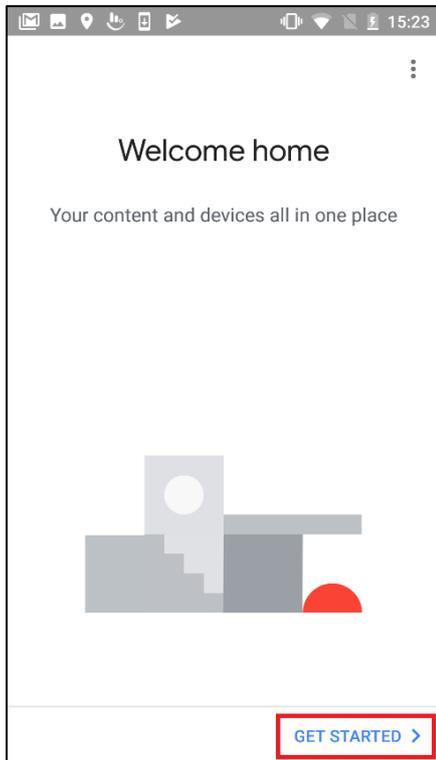

Finish the Google assistant setting, and say “Talk to luffanet” to “Google app” and try to control the Gateway via Google Assistant. Say for example a scene which you made like “Light on”.

2-4 When you have a Google Home Speaker please Download “Google Home” app.

2-5 Open "Home" app and setup our account (**same** as Luffanet) and the app will pair with the Home kit which is in range. After the setup is complete you can use the Speaker in the same way as Google Assistant.

Amazon Alexa Setup.

Make sure you have an Amazon Alexa speaker and the Amazon Alex APP installed or use a Computer

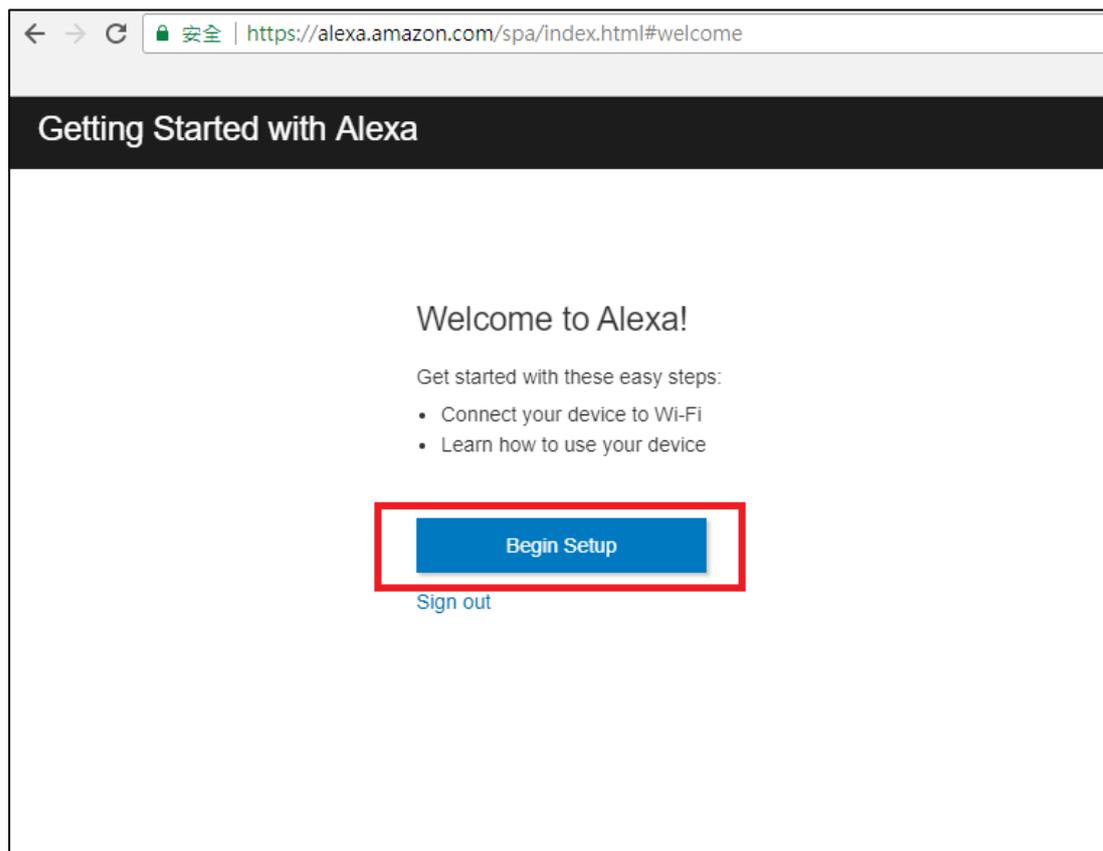

1-1 Please go to the website <https://alexa.amazon.com/spa/index.html#cards>

And create an account. Please use the **same** Google account as LuffaTube.

The screenshot shows the Amazon Alexa account creation page. At the top, there is the Amazon Alexa logo. Below it, the heading "Create account" is displayed. There are three input fields: "Name", "Your email address", and "Create a password". A checkbox labeled "Show password" is checked. A blue button labeled "CREATE YOUR AMAZON ACCOUNT" is positioned below the fields. Underneath the button, a small text line reads "By creating an account, you agree to Amazon's Conditions of Use and Privacy Notice." Below this, there is a link "Already have an account?" and a grey button labeled "SIGN IN NOW". At the bottom of the page, a copyright notice states "© 1996-2018, Amazon.com, Inc. or its affiliates".

1-2 Start Setting up your Alexa Speaker please follow the Amazon Steps.

The screenshot shows a web browser window with the URL <https://alexa.amazon.com/spa/index.html#welcome>. The page title is "Getting Started with Alexa". The main heading is "Welcome to Alexa!". Below the heading, it says "Get started with these easy steps:" followed by a list of two items: "Connect your device to Wi-Fi" and "Learn how to use your device". A blue button labeled "Begin Setup" is highlighted with a red rectangular border. Below the button, there is a link labeled "Sign out".

3-2 Choose your device.

Setup

Choose a device to set up

By proceeding, you agree to the terms found [here](#).

Welcome to Alexa!

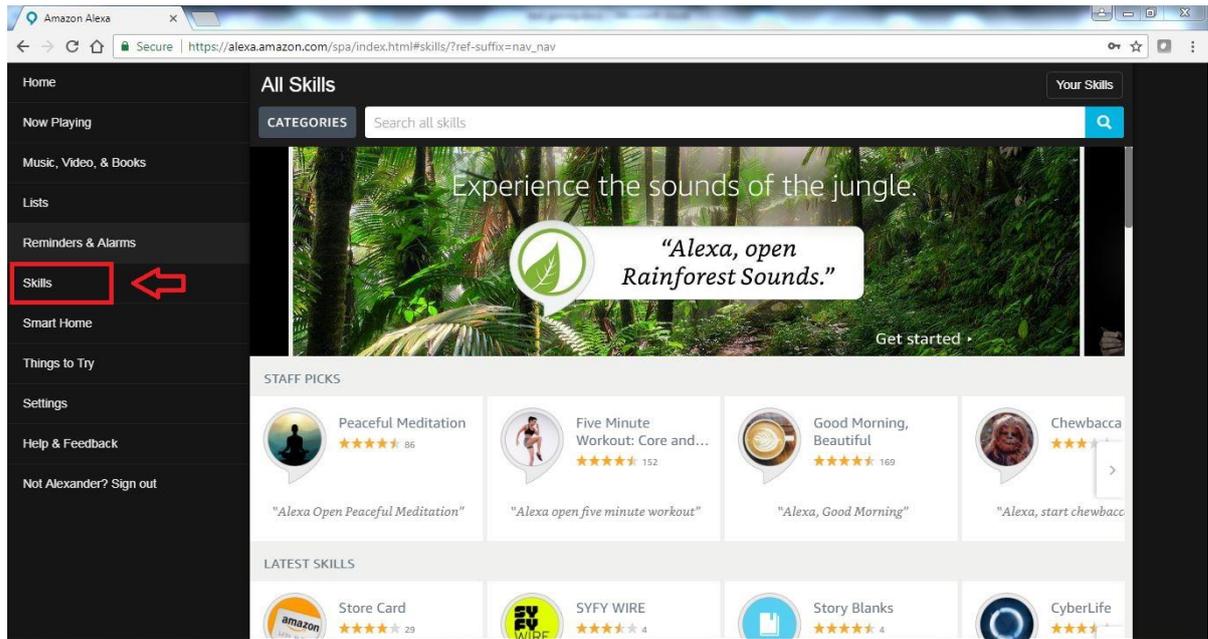

Amazon processes and retains audio, interactions, and other data in the cloud to provide and improve our services. Alexa allows purchasing by voice using your default payment and shipping settings. You can require a speakable confirmation code, turn off voice purchasing, and see product and order details in your Alexa app or on alexa.amazon.com. Alexa also allows you to call and message your friends and family. [Learn more](#).

By clicking "Continue", you agree to Amazon's [Conditions of Use](#) and [all the terms found here](#).
