Overview

Painless Upgrading your Network Connection to 802.3af/at PoE 2.5Gbps & SFP+ 10G Super High speed

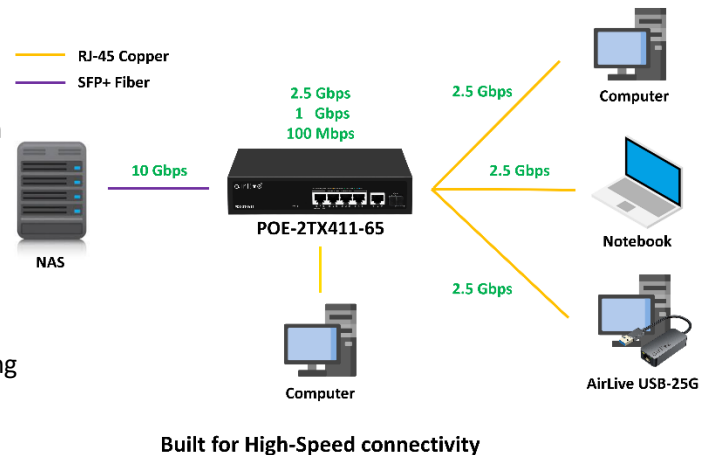

The AirLive Multi-Giga switch POE-2TX411-65 is compliant with 802.3af(15W)/802.3at(30W) it supports 4 PoE 2.5G RJ45 ports and 1x 2.5G RJ45 & 1x 10G SFP+ uplink port for delivering high-speed connections on RJ-45 and SFP+. With the 2.5G multi-Giga switch, you can connect to a variety of 2.5GbE-enabled devices, such as NAS | NVR | PC | Server | Laptop, for enjoying faster experience and handle bandwidth-hungry applications. The total PoE power is 65W which can power on several PoE devices like Access Points and IP Cameras. Designed in a slim sized solid housing, it's an affordable, space-saving solution suitable to Home and SMB network applications.

Features and Specifications

AirLive POE-2TX411-65 2.5Gbps Switch with SFP+ 10G

- 4 x PoE 10/100/1000/2500Mbps RJ45 (up to 30W)
- 1 x 10/100/1000/2500Mbps RJ45
- 1 x 10G SFP+
- All ports at Multi Gigabit high speed, auto-negotiation
- PoE power, supports 802.3af/at PoE
- PoE Priority
- Internal Power, 65W
- Providing satisfied bandwidth for various network devices, such as online gaming, multi-media, NAS, Server system
- Super Fast 2.5Gbps RJ-45 and 10Gbps SFP+ Networking
- Existing Cat5e cable suitable, painless upgrading
- Plug and Play, Zero configuration
- Compact size for Home or SMB Network Connectivity

Multi Gigabit for Interconnect

With the AirLive POE-2TX411-65 2.5Gbps switch, it is possible to connect several high-speed devices together via RJ-45 connections using a normal Cat.5e network cable. Higher bandwidth improves the playback quality of 4K/8K videos, prevents lag for Gaming, smooths speed when download or upload large data, increases data transfer speed when doing backup to a NAS drive. Use the 10G SPF+ as uplink to a larger network with higher speed.

2.5 Times Faster

2.5GbE is 2.5 times faster than standard Ethernet (1GbE), upgrade network performance to boost productivity.

Video Streaming

Higher bandwidth improves the playback quality of 4K/8K videos.

Works with existing cables

No special cables or connectors are required to take advantage of 2.5GbE. Simply use your existing CAT5e cables as normal with your new 2.5GbE infrastructure.

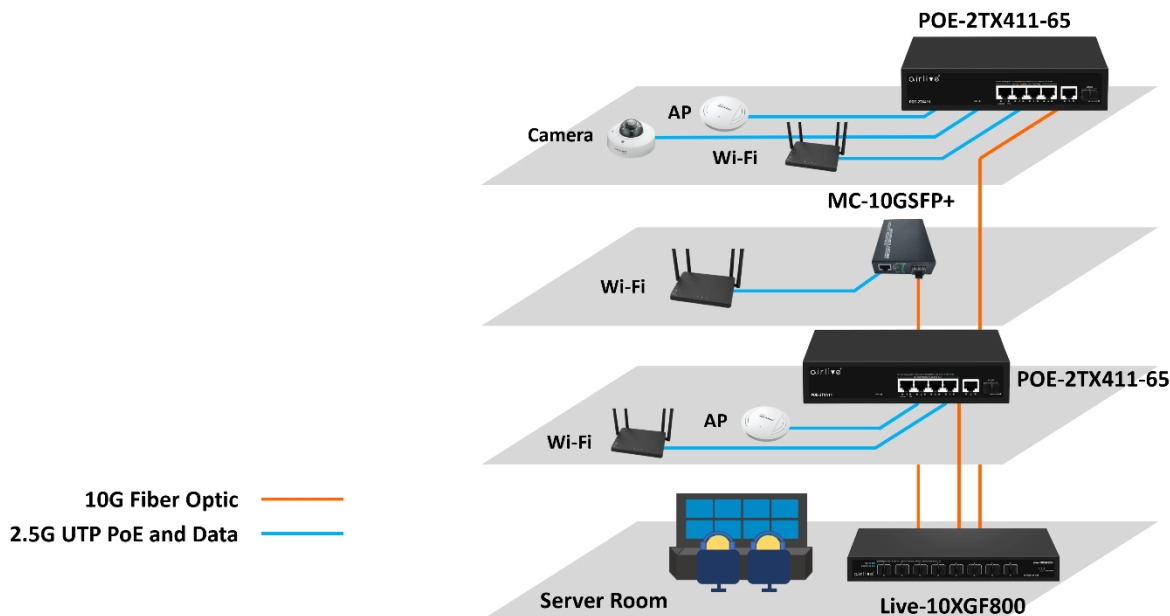

Gaming

No lag when you are Gaming.

PoE at High Speed and POE Priority

Connect several PoE devices to the switch, Access Points or normal IP cameras can connect to any of the PoE ports on the switch and be powered on up to max 30W (at). With the 2.5G RJ45 ports and 10G SFP+ Uplink port bandwidth would not be an issue. PoE Priority is supported for the PoE Power from port 1~4, this can be helpful for a IPCAM or high priority preferred device. This function is turned on by default.
