Switching between Classic and Minimalist UI.

With the introduction of Firmware 1.3.0 and higher, the AirLive GPON OLT-121 now also supports the new Minimalist UI. This new minimalist style UI is the same which is also used in the GPON OLT-121-64 and the XGSPON OLT-1XGS.

In the AirLive GPON OLT-121 it is possible to switch between the two different UI's you can keep using the Classic mode or switch to the new Minimalist one. Settings made in one UI will not be deleted when switching modes.

Classic UI

In the right top corner click on "Minimalist" to switch UI's.

Minimalist UI

In the right top corner click on "Classic mode" to switch UI's
