

## SD-104 *Wall Dimmer Z-wave Plus*

- Z-Wave Plus
- Up to 300W
- Overload Protection
- Works with Dimmable LEDs
- Act as Z-wave Repeater automatically
- Longer Z-wave signal transmission
- Easy Installation

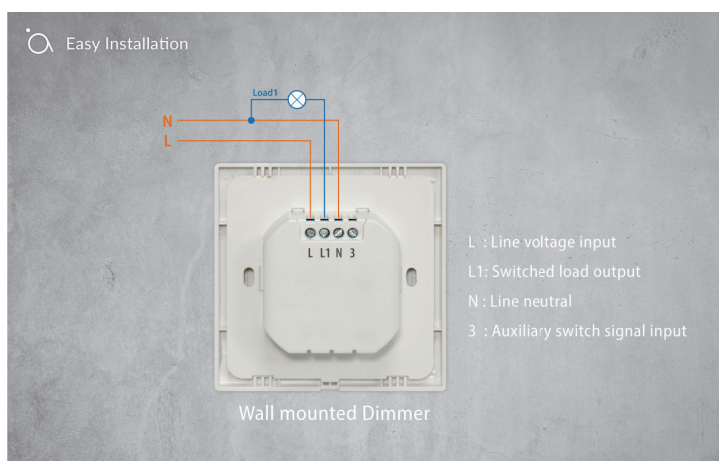

### *Wall Dimmer*

The AirLive SD-104 Wall Dimmer with Z-Wave Plus technology is a dimmer device which can replace your existing light dimmer. When you replace your old light dimmer with the SD-104 it will allow you to control your light by pushing the button to increase and decrease the brightness or control the light via the AirLive SmartLife Plus APP but also set scenes macros to automate your home.

### *Easy Installation*

Replacing your old dimmer with the AirLive SD-104 Z-Wave Light dimmer is easy. You just have to remove your old dimmer and install the SD-104 but please be noted you need a neutral line to make the dimmer work.

## Voice Control your Lighting

Use multiple Wall Dimmers around your house and make scenes in the AirLive SmartLife Plus APP. Turn on one light or make a scene to turn on/off all your lights. You can even control them by Voice with Amazon Alexa and Google Home/Assistant. Set the dimmer to a certain brightness level using voice control.
